ROBERT McDOUGALL  
ART GALLERY

AUGUST 25 - SEPTEMBER 13

## FOREWORD

This exhibition is the third in a series which this Gallery has presented this year, in an endeavour to analyse current printmaking and painting in Canterbury.

Whereas the previous exhibition, **Recent Painting in Canterbury** presented work largely by painters who have become reasonably well-established on the New Zealand art scene, this present collection aims at showing a body of work by people who generally fall into a younger age group, whose work has not so far been widely seen, or who are in the process of emerging. In order to provide some degree of variation, on this occasion several young sculptors have been asked to provide works.

It is hoped that this will not only be an opportunity for the general public to see what a number of serious younger artists in Canterbury are doing, but also, perhaps, will give some indication of new directions and developments taking place.

B. D. Muir,  
**Director.**
