#### YOUTH AND MUSIC

THE recollections of one's early musical training are those that linger longest with us. The ambition of a child to gain musical knowledge should be encouraged and fostered. Music has now become so important an accomplishment that the child should be given every opportunity to reach its coveted goal. There is no learning so pleasing, and no attainment to equal that of music. We assist anyone desirous of purchasing a piano by quoting the very lowest price for a good article, and making the terms so easy that the undertaking is not a difficult one.
