

N.Z. SOCIETY OF POTTERS

**35th
National Exhibition
1994**

**22nd - 29th May, 1994
BAYCOURT, TAURANGA**

Rick Rudd 131

Welcome to the 35th National Exhibition of the New Zealand Society of Potters. This Exhibition will hopefully be viewed as a statement of frozen time (history) of the work of those potters who submitted work for selection.

It should leave the viewer with a broad perspective of the types and styles of work being carried out in New Zealand at the present. It will no doubt cement the popularity of ceramics as an expressive art form.

I hope you enjoy this Exhibition and leave excited and stimulated.

Peter Collis
President

One of the primary objects of the New Zealand Society of Potters is "To encourage and foster amongst New Zealanders, the creation of Handcrafted pottery and ceramics of the highest possible quality and the promotion of the same". In order to practically serve this aim I was looking for an inclusive selection, which promoted excellence and which showed the broad spectrum of work representative of what is currently being made in clay. A survey of 1994. At the same time I was interested in the personal development and the maintaining of high standards within the work of individual artists. Their selected work is intended to reflect and promote their ongoing personal best.

John Parker
Co-Selector

The N.Z.S.P. is a National Society of Potters, and I feel this is the one exhibition which should reflect the spirit of the membership.

This exhibition is a reflection of those who submitted work, and John and I made considerable effort to best represent them.

Despite some excellent work, I must admit to being disappointed with the exhibits from some who submitted below the expected quality, and others who chose to pass up the "National" but are represented in the other current high profile exhibitions.

Neil Grant
Co-Selector
