2 KKlay Convention Dunedin

29 September – 2 October 2000

The first Potters Conference was held in Dunedin in 1957 with Oswald Stephens as the 'driving force' behind it. This generated a lively debate on standards and the desirability of developing work more characteristic of the New Zealand spirit. We are happy, that, in the new millennium we should again be hosting the National Exhibition, providing an opportunity to reflect on whether these aims have been achieved or indeed remain relevant.

Many people have been involved in the organisation of this Conference and we are very grateful to all the 'helpers' – the list is long. In particular, we would like to thank the Community Trust of Otago, Creative New Zealand, Otago Potters Group, The Southland Potters Association, The Faculty of Arts (Ceramics Department) Otago Polytechnic, Kevin Griffin of Southern Clays and Asia 2000 Foundation for their sponsorship.
